

FORMS X SERVER

21st Century Forms Management.

Digicomp's FormsX Server™ delivers powerful yet easy to use forms management to the enterprise. Combining standard web technologies with QuarkXPress simplicity, FormsX Server provides an exhaustive workflow solution: browser based editing/viewing/filling/printing, multi-level user access, approval chains, revision control, notification, department assignments, global find & replace, PDF electronic form generation, pre-fill fields from database, variable barcodes, security document features, and much more, all from a standard web browser. Intended users include medical, financial, government and corporate institutions looking to simplify forms creation & revisioning, improve efficiency, decrease costs, and reap the benefits of print-on-demand forms stored in a central repository.

The screenshot shows a web browser interface for the FormsX Server. The top navigation bar includes 'Home', 'File Browser', 'Find Replace', 'Comments', 'Admin Panel', and 'Sign Out'. The main content area displays a form for 'ACUTE OCCUPATIONAL THERAPY SERVICES' from 'Hennepin County Medical Center'. The form includes a 'PATIENT DATA' section with fields for Date, Pt. Med. Rec. #, and Pt. Name. Below this is a table for 'THERAPEUTIC PROCEDURES PER ENCOUNTER' with columns for 'SERVICES' and 'SUPPLIES'. The 'SERVICES' table has columns for 'EAP NUMBER', 'DESCRIPTION', and 'CPT CODE'. The 'SUPPLIES' table has columns for 'EAP NUMBER' and 'DESCRIPTION'. The form also includes a 'THER' section with a grid for days of the week and a 'REASON FOR VISIT TODAY' field.

This is your web browser editing a document!

Unique features

- Complete forms workflow solution (from design to p.o.d.)
- Flash based document editing in standard web browsers
- Dynamic electronic PDF form generation (w/ opt. data)
- Security watermarking to authenticate paper documents

QuarkXPress 6/7 for template editing/design

Why FormsX?

For over 15 years FormsX™ has been the design tool of choice for forms manufacturers, distributors, and forms management departments worldwide. Only FormsX leverages the power of industry standard QuarkXPress, adding countless productivity tools and forms specific features creating the most efficient environment for forms creation the world has ever seen. FormsX Server takes the desktop heritage of FormsX and enables a quantum leap in efficiency, leveraging standard web technologies and zero-user-training simplicity. Bring your forms management into the 21st century today.
